

Fund Update

For the quarter ended 31 December 2024

- Lighthouse Investment Funds
- Lighthouse Global Equity Fund

This fund update was first made publicly available on: 13 February 2025

What is the purpose of this update?

This document tells you how the Lighthouse Global Equity Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. FundRock NZ Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

Objective: The fund's primary objective is to deliver long-run pre-tax returns (but after fees and expenses) that are at least 2% pa above the return of the MSCI All Country World Net Index. The fund's secondary objective is to minimise the number of "losing years" - that is financial years where investors receive a negative return, or loss, rather than a positive return.

Strategy: The fund invests in very large capitalisation stocks and Exchange Traded Funds listed on the NYSE and Nasdaq stock markets. It may use leverage of up to 30% of NAV. The fund's foreign currency exposures are not hedged back to New Zealand dollars.

Total value of the fund	\$19,331,293
The date the fund started	17 March 2021

What are the risks of investing?^{See note 1}

Risk indicator for the Lighthouse Global Equity Fund.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at <https://sorted.org.nz/>.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 5 years to 31 Dec 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the product disclosure statement (**PDS**) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	83.93%
Annual return (after deductions for charges but before tax)	82.71%
Market index annual return (reflects no deduction for charges and tax)	32.78%

The market index return is MSCI All Country World Net Index. This has been the market index since the inception of the fund.

Additional information about the market index is available on the offer register at <https://disclose-register.companiesoffice.govt.nz>.

Annual Return Graph See note 2

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2024.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Lighthouse Global Equity Fund are charged fund charges. In the year to 31 March 2024 these were:

	% of net asset value (inc. GST)
Total fund charges	5.83%
Which are made up of:	
Total manager and admin charges (inc. GST)	1.06%
Including:	
Manager's basic fee (inc. GST)	0.13%
Other management and administration charges	0.92%
Total performance-based fees	4.77%

Other management and administration charges includes an estimate of the charges incurred in the underlying fund(s) in which the fund invests. The estimate incorporates information provided by the underlying fund manager as well as information sourced from the underlying fund's disclosure documents. See the PDS for more information about the basis on which performance fees are charged.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for the Lighthouse Global Equity Fund on the offer register at <https://disclose-register.companiesoffice.govt.nz> for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Anthony had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Anthony received a return after fund charges were deducted of \$8,271 (that is 82.71% of his initial \$10,000). This gives Anthony a return after tax of \$8,393 for the year.

What does the fund invest in?

This shows the types of assets that the fund invests in.

Actual Investment Mix

Foreign currency was not hedged to New Zealand dollars as at 31 December 2024

The fund can use moderate leverage, i.e. debt. Any leverage is limited to a maximum of 30% of fund net asset value. Hence, the fund may be from 30% to 130% invested in international equities, while cash and cash equivalents may be between -30% to 70%.

Target Investment Mix

Top 10 investments

	Asset Name	% of Fund net assets	Type	Country	Credit Rating (if applicable)
1	Cash at Bank (BNZ)	52.18%	Cash and cash equivalents	NZ	AA-

Further information

You can also obtain this information, the PDS for the Lighthouse Investment Funds, and some additional information from the offer register at <https://disclose-register.companiesoffice.govt.nz>.

Notes

1. A combination of actual fund returns and market index returns have been used to determine the risk indicator as the fund has not been operating for the required five years. Market index returns have been used until 31 March 2021 and fund returns thereafter. The risk indicator may therefore provide a less reliable indicator of the fund's future volatility.
2. The bar chart shows fund returns after deducting fees and tax. Tax is deducted at the highest Prescribed Investor Rate of 28%. However, the market index returns are shown before deducting fees and tax.
