- LIST OF PORTFOLIOS  
FR Qualified Investor Hedge Fund Scheme
- Polar Star FR Qualified Investor Hedge Fund

THE PORTFOLIO OBJECTIVE  
The objective is to invest in agricultural and energy related derivatives, index, options and OTC traded instruments. The portfolio is constructed with a fundamental bias and is supported by quantitative analysis.

THE INVESTMENT STRATEGY  
The portfolio employs relative value trading which arbitrages the pricing mismatch between commodities, spread trading which arbitrages the carry cost of commodities as well as volatility arbitrage which arbitrages the mismatch in volatility pricing between different commodity exchanges.

CHANGES TO THE INVESTMENT STRATEGY AND/OR INVESTMENT POLICY  
In order to amend any provision(s) contained in the supplemental deed, the manager has to request and receive prior approval from the FSCA. Such request shall state the reasons for the proposed amendment and the impact or benefit this is likely to have.

Upon receiving such approval, the auditor of the scheme must oversee a balloting process which is undertaken to obtain consent from the investors.

Investors holding at least 75% (seventy-five percent) in value of the participatory interests in the portfolio and who constitute more than 50% (fifty percent) of the portfolio's investors must vote in favour of the amendment for the amendment to be affected.

Voting shall be conducted by electronic ballot in accordance with the provisions of the deed, and the manager shall, after having dispatched the ballots to investors, allow for a period thirty days for investor to return the ballots.

DOES THE PORTFOLIO INVEST IN UNDERLYING FUNDS?

No.

- THE TYPES OF ASSETS IN WHICH THE PORTFOLIO MAY INVEST
- Exchange cleared and OTC traded commodity derivatives and indices and exchange cleared or OTC traded derivatives and financial instruments linked or referenced to commodity derivatives and indices;
  - Exchange cleared and OTC traded freight derivatives and indices and exchange cleared or OTC traded derivatives and financial instruments linked or referenced to freight indices;
  - Exchange cleared and OTC traded FX derivatives;
  - Exchange cleared and OTC traded interest rate derivatives, and;
  - Units in foreign Collective Investment Schemes.

THE INVESTMENT RESTRICTIONS APPLICABLE TO THE PORTFOLIO  
The Fund will invest in financial instruments based on the value of commodities but will ensure that the position is closed out before physical delivery is required.

INSTANCES WHERE THE PORTFOLIO MAY USE LEVERAGE  
THE TYPES AND SOURCES OF LEVERAGE  
The portfolio can generate leverage by utilizing derivative instruments that inherent leverage built into their construction.

RISKS ASSOCIATED WITH THE LEVERAGE  
The portfolio may use leverage techniques from time to time to purchase or carry investments.  
The interest expense and other costs incurred in connection with such leverage or borrowing may not be recovered by an appreciation in the investments purchased or carried.

Gains realized with leveraged investments may cause the underlying fund's net asset value to increase at a faster rate than would be the case without leverage. If, however, investment results fail to cover the cost of leverage or borrowings, the portfolio's net asset value could also decrease faster than if there had been no leverage or borrowings. Because of the leveraged nature of certain of the investments, a relatively small movement in the market price of traded instruments may result in a disproportionately large profit or loss.

The degree to which leverage may be employed in the hedge fund portfolio will be limited by the terms of this mandate. The limits laid down by this mandate should be carefully reviewed in making an investment decision.

RESTRICTIONS ON THE USE OF LEVERAGE  
The degree to which leverage may be employed in the hedge fund portfolio will be limited by the exposure limit in the supplemental deed and mandate.

COLLATERAL AND ASSET RE-USE ARRANGEMENTS  
The cash held in the portfolio is available for use as collateral.

THE MAXIMUM LEVERAGE ALLOWED FOR THE PORTFOLIO  
The portfolio utilizes the commitment approach to measure leverage.

<b>Commitment Approach Leverage Limit</b>	<b>900%</b>
<b>Net Exposure Limit</b>	<b>200%</b>

MATERIAL ARRANGEMENTS OF THE MANAGER WITH THE PRIME BROKER  
MANNER OF MANAGING CONFLICTS OF INTEREST

The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them. In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimize the effect on any affected party by such conflict.

LEVEL OF COUNTERPARTY EXPOSURE  
The portfolio will comply with the counterparty exposure limits as set out in BNS2.

METHODOLOGY OF CALCULATING COUNTERPARTY EXPOSURE  
In terms of Section 8(2) of BNS2 counterparty exposure shall be calculated to equal any initial margin held by a counterparty, the market value of any derivative, any net exposure generated through a scrip lending agreement and any other exposures created through reinvestment of collateral.

PROVISIONS IN THE CONTRACT WITH THE DEPOSITARY AND CUSTODIAN ON THE POSSIBILITY OF TRANSFER AND RE-HYPOTHECATION OF ASSETS  
The prime broking agreement may allow for the re-hypothecation of assets.

The portfolio's prime broker may provide a financing service to the portfolio, whereby any shortfall in the financing of the portfolio's assets is provided by the prime broker. Any such financing will be collateralized from the assets of the portfolio. However, unlike a normal borrowing situation, the prime broker takes physical delivery of the portfolio's assets and is permitted to deal with them for its own account. The portfolio's assets are therefore treated as being indistinguishable from the assets of the prime broker and are not segregated as client money or assets.

In the event of the insolvency of the prime broker, the assets of the portfolio that are held as collateral against money owed to the prime broker, are completely exposed to the prime broker's creditors. In such instances, any action by the prime broker's creditors may lead to the closing out of positions without the consent of the investment manager and at a loss.

DELEGATED ADMINISTRATION & MANAGEMENT OF CONFLICT OF INTEREST THAT MAY ARISE  
The Manager has appointed Apex Fund and Corporate Services SA (Pty) Ltd ("Apex") as the administrator. Both entities are subject to separate governance structures and independent oversight and internal controls; as well as the FSCA regulatory oversight. Both entities have satisfied the FSCA in terms of the conflict-of-interest policy they have in place.

The parties agree that, for the duration of this agreement, they shall endeavour to avoid any conflict of interest between them. In order to protect the investors, the parties shall exercise due care and skill and note to any affected party the nature and extent of the potential conflict of interest as well as the steps undertaken to minimize the effect on any affected party by such conflict.

THE PORTFOLIO'S VALUATION AND PRICING METHODOLOGIES  
The portfolio will apply the portfolio valuation and asset pricing policy of the Manager. This policy will be consistently applied and meets the requirements of BNS2.

THE LIQUIDITY RISK MANAGEMENT OF THE PORTFOLIO AND THE REPURCHASE RIGHTS  
The investment manager has implemented an appropriate liquidity management system and effective procedures taking into account the investment strategy, liquidity profile and redemption policy of the portfolio. In this respect the investment manager shall ensure that the liquidity profile of the investments of the portfolio is appropriate to the repurchase period of participatory interests.

The investment manager shall conduct tests assessing the ability of a portfolio to liquidate a substantial portion or all of its assets within specific timeframes, in order to evaluate the impact on the portfolio's NAV under such scenarios and ensure that at least such percentage of the assets of the portfolio are liquid.

The liquidity stress tests:

- where appropriate simulate a shortage of liquidity of the assets in the portfolio and atypical redemption requests;
- cover market risks and any resulting impact, including on margin calls, collateral requirements or credit lines;
- account for valuation sensitivities under stressed conditions; and
- are conducted at a frequency which is appropriate to the nature of the portfolio, taking in to account the investment strategy, liquidity profile, type of investor and redemption policy.

REPURCHASE OF PARTICIPATORY INTERESTS

Repurchase notification date will be 1 (one) calendar month prior to the repurchase pricing. Repurchase payment date will be 14 (fourteen) business days after the repurchase pricing date.

GATING, SIDE-POCKETING AND REPURCHASE RESTRICTIONS

Sections 5(b) (ii) and 6(5) of BNS2 provide that both retail hedge funds and qualified investor hedge funds may suspend the repurchases of units under exceptional circumstances and when it's in the interests of investors.

SPECIAL REPURCHASE ARRANGEMENTS OR RIGHTS OF SOME INVESTORS

None.

Collective Investment Schemes are generally medium- to long-term investments. The value of participatory interests (units) may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investments are traded at ruling prices and can engage in scrip lending and borrowing. A schedule of fees, charges and maximum commissions, as well as a detailed description of how performance fees are calculated and applied, is available on request from FundRock Management Company (RF) (Pty) Ltd ("the Manager").

The Manager does not provide any guarantee in respect to the capital or the return of the portfolio. Excessive withdrawals from the portfolio may place the portfolio under liquidity pressure and in such circumstances, a process of ring-fencing of withdrawal instructions and managed pay-outs over time may be followed. Commission and incentives may be paid, and if so, are included in the overall costs.

The Manager may close the portfolio to new investors in order to manage it in accordance with its mandate. Prices are published daily on our website. Additional information, including key investor information documents, minimum disclosure documents, as well as other information relating to the basis on which the manager undertakes to repurchase participatory interests offered to it, and the basis on which selling and repurchase prices will be calculated, is available, free of charge, on request from the Manager.

The value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Where the portfolio invests in offshore assets, performance is further affected by uncertainties such as changes in government policy, taxation and other legal or regulatory developments. The Manager ensures fair treatment of investors by not offering preferential fee or liquidity terms to any investor within the same strategy.

The Manager is registered and approved by the Financial Sector Conduct Authority ("FSCA") under the CISCA. The Manager retains full legal responsibility for the portfolio. Polar Star Management (Pty) Ltd, FSP No. 45053, is an authorised under the Financial Advisory and Intermediary Services Act 37 of 2002 to provide investment management services. Polar Star Management (Pty) Ltd holds professional indemnity and fidelity insurance cover. FirstRand Bank Limited is the appointed trustee.
