## **Disclaimer**

The Portfolio is approved by the Financial Sector Conduct Authority (FSCA) under Section 65 of the Collective Investment Scheme Control Act 2002 and has been categorized as a Collective Investment Scheme in Qualified Investor Hedge Fund for public sale in South Africa.

Collective Investment Schemes (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Investment Advisor. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, Securities Tax Transfer, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. The investment performance is for illustrative purposes only and the investment performance is calculated by taking the actual initial fees and all ongoing fees into account. Income is reinvested on the investment date. Forward pricing is used. Prices are published monthly on Investment Advisor's website.

The Representative Office retains responsibility for any portfolio marketed on its platform. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks, and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.

The Portfolio's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year.

Transaction Costs (TC) is the percentage of the value of the Portfolio incurred as costs relating to the buying and selling of the Portfolio's underlying assets. Transaction costs are a necessary cost in administering the Portfolio and impacts Portfolio returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Portfolio, investment decisions of the investment manager and the TER.

**Performance Fee:** The Portfolio charges a quarterly Performance Fee determined as of the last Business Day of each calendar quarter (and on a Redemption Date with respect to Shares redeemed on any date other than the last Business Day of a calendar quarter) (a "Performance Period") equal to 20% of the outperformance above the hurdle rate of USD LIBOR (the "Hurdle Rate").

This is a marketing communication. Further fund details, including risks, fees and expenses, and other information, such as the Private Placement Memorandum, Key Investor Information Documents (KIIDs) and other documentation (collectively, the Fund Documents), which can be obtained by emailing [information@apexfs.group](mailto:information@apexfs.group). Please refer to the Fund Documents and consider all of a fund's characteristics before making any final investment decisions.
