

CORION ABSOLUTE FR RETAIL HEDGE FUND

MINIMUM DISCLOSURE DOCUMENT (MDD)

FEBRUARY 2025 | CLASS B

Investment Objective and Strategy

The fund will have maximum flexibility to invest in a wide range of investments including, but not limited to, listed and unlisted equities, scrip loans, options, warrants, convertible debt securities, preference shares, futures, ETFs and derivatives. The portfolio's investment strategies will likely be focused on South African markets but may be supplemented by foreign investments. The Benchmark is the STeFI Composite Index.

Investor

The fund is appropriate for investors who aim for consistent absolute returns with low volatility and whom understand the risk and exposure of a hedge fund. The fund is not compliant with Regulation 28 of the Pensions Fund Act.

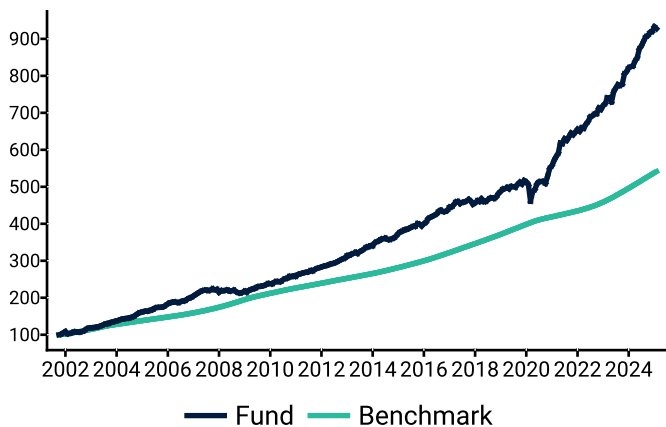

The risk category shown is not guaranteed and may change over time. The lowest category does not mean the portfolio is risk free. There may be other special areas of risk relating to the portfolio, including liquidity, credit, market, settlement, political, tax, foreign exchange and other legal or regulatory risks.

FEBRUARY 2025 | CLASS B

Decoding the Month

Distributions

Dates	Distributions are in March, June, September and December
Detail	0.112 rpu (Dec 2024)

Total Investment Charge (incl. VAT)

Period	Service Fees (excl. VAT)	Other Costs	Total Expense Ratio (TER)	Transaction Costs (TC)	Total Investment
1 Year	0.68%	1.62%	2.30%	0.34%	2.64%

Charges are annualised for periods longer than one year. As of 30 Sep 2024. The TER, TC and TIC, is the percentage of the net asset value of the class of the Financial Product incurred as costs relating to the investment of the Financial Product. It should be noted that a TIC is the sum of two calculated ratios (TER+TC).

GLOSSARY

Net Asset Value: the total market value of all assets in a portfolio including any income accruals and less and deductible expenses such as audit fees, brokerage and service fees. **Annualised Return:** The weighted average compound growth rate over the performance period measured. **Highest and Lowest Return:** The highest and lowest rolling 12 month performance of the portfolio since inception.

TOTAL EXPENSE RATIO

A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TER's. Transaction Costs are a necessary cost in administering the financial product and impacts financial product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of financial product, the investment decisions of the investment manager and the TER. The TER and transaction cost calculations are based on a 1 year rolling period. Fee calculations are based upon their most recent published figures, being the date of this report.

MANDATORY DISCLOSURES

Collective Investment Schemes are generally medium to long-term investments. The value of participatory interests (units) may go down as well as up. Past performance is not necessarily a guide to future performance. Collective investments are traded at ruling prices and can engage in scrip lending and borrowing. A schedule of fees, charges, minimum fees, and maximum commissions is available on request from the manager, as well as a detailed description of how the fees are calculated and applied. The manager does not provide any guarantee in respect to the capital or the return of the portfolio. Portfolios may be closed to new investors in order to manage it more efficiently in accordance with its mandate. Prices are published daily on our website. Additional information, including key investor information documents, minimum disclosure documents, as well as other information relating to the portfolio, including the basis on which the manager undertakes to repurchase participatory interests offered to it, and the basis on which selling and repurchase prices will be calculated, is available, free of charge, on request from the manager. The value of an investment is dependent on numerous factors which may include, but not limited to, share price fluctuations, interest and exchange rates and other economic factors. Where funds are invested in off-shore assets, performance is further affected by uncertainties such as potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks and potential limitations on the availability of market information. The Manager ensures fair treatment of investors by not offering preferential fee or liquidity terms to any investor within the same strategy. FundRock Management Company (RF) (Pty) Ltd ("the Manager") is registered and approved in terms of the Collective Investment Schemes Control Act 45 of 2002. Corion Capital (Pty) Ltd (FSP No 44523) is authorised under the FAIS Act to provide discretionary investment management services to hedge funds. The Manager is registered and approved by the Financial Sector Conduct Authority under CISCA. FirstRand Ltd is the appointed trustee. The Manager retains full responsibility for the portfolio.

Investment Manager

Corion Capital is the appointed investment manager and has been responsible for multi strategy portfolios since 2001. Corion is driven by the desire to simplify the world of investing by devolving agile solutions and keeping our partners engaged about their investments.
